01. About Ethics (EIX)

Ethics (EIX) is the core utility token of the Ethics Lab ecosystem.

Our vision is to build a complete Web3 infrastructure where developers can easily create blockchain projects, launch tokens, access AI tools, use decentralized services, and participate in a transparent ecosystem powered by EIX.

Every major product developed by Ethics Lab will be connected to the EIX ecosystem.

05. Exchange Listing

Our long-term objective is to list EIX on leading global exchanges such as **Binance** and **OKX**.

STRATEGIC MILESTONE

Target Listing Price

Up to \$10 per EIX

** This is a long-term project objective and not a guaranteed future price.*

06. Ethics Lab Platform

Ethics Lab is building a complete blockchain creation platform.

Today many platforms charge developers \$50–\$100+ for token creation, deployment, and management services. **Our goal is different.**

Ethics Lab aims to provide:

One-click token creation

Solana support

Ethereum support

BNB Chain support

Simple dashboard

Easy token management

Professional developer tools

AI-powered utilities

Fast deployment

Affordable platform fees

TARGET IMPLEMENTATION

Make **1 EIX** sufficient for standard token creation and management services.

07. EIX Utility

EIX is not just another cryptocurrency. It is the **base currency** of the entire Ethics Lab ecosystem.

EIX will be used for:

Platform fees

Token creation

Token management

AI services

Launchpad services

DEX utilities

Trading platform utilities

Future ecosystem applications

Every new product launched by Ethics Lab is designed to increase the real utility of EIX.

08. Revenue Model

● Revenue Generation

- Token Creation Platform
- AI Applications
- DEX
- Trading Platform
- Platform Service Fees
- Digital Products
- Business Partnerships
- Future Web3 Services

● Revenue Allocation

- Ecosystem Development
- Treasury Growth
- Marketing
- Community Incentives
- EIX Buyback Programs

Quarterly reports will publicly disclose ecosystem revenue, treasury activity, and buyback operations to maintain transparency.

09. Future Ecosystem Benefits

As Ethics Lab grows, eligible EIX holders may receive benefits from future ecosystem projects, including project participation opportunities or token distributions where applicable under each project's official rules.

10. Community Contribution Program

Anyone can join and help grow the Ethics ecosystem.

MEMBERS CAN:

- 1 Invite new community members
- 2 Help users follow official Ethics Lab social media accounts
- 3 Collect users' Solana wallet addresses
- 4 Assist buyers in purchasing EIX through the official process

[EVERY VERIFIED CONTRIBUTION IS RECORDED]

14. Long-Term Vision

Ethics Lab is not focused on building a single token.

Our mission is to build an entire Web3 ecosystem where every future application, AI product, blockchain service, DEX, launchpad, and digital platform is connected through EIX.

As the ecosystem expands, EIX is intended to remain the central utility token across all Ethics Lab services.

15. Transparency

Ethics Lab is committed to transparency.

The community will receive regular updates regarding:

Development Progress

Revenue Reports

Treasury Activity

Buyback Activity

Product Launches

Ecosystem Expansion

Future Roadmap

16. Risk Disclosure

IMPORTANT NOTICE

EIX is a cryptocurrency and participation involves risk.

The crypto market is highly volatile. Token prices, exchange listings, buybacks, commissions, rewards, ecosystem growth, and future returns are not guaranteed. All plans are subject to market conditions, adoption, execution, liquidity, treasury decisions, regulatory requirements, and other factors.

PARTICIPANTS SHOULD CONDUCT THEIR OWN RESEARCH BEFORE MAKING ANY FINANCIAL DECISION.

OUR MISSION

Build the world's simplest and most affordable Web3 ecosystem where developers can create blockchain projects with ease, communities are rewarded for meaningful contributions, and **EIX becomes the foundation** of every Ethics Lab product and service.
